INDEX TO VOLUME 9

A

Abscess, cold, of chest wall and paravertebral abscesses, role of pleural lymphatics in pathogenesis of (Burke), 506

Adams, Ralph. Evaluation of pulmonary function tests in determination of risk prior to thoracic surgery, 623

Adams, William E. Differential pressures and reduced lung function in intrathoracic operations, 254
(with Marcotte, R. J., Phillips, F. J., and Livingstone, H.). Differential intrabronchial pressures and mediastinal emphysema, 346

Air, extrafascial, as adjunct to thoracoplasty with extrafascial apicolysis (Aycock, Brantigan, and Welch), 382

American Association for Thoracic Surgery:
constitution and by-laws, 463
list of members, 232
of officers, 117, 356, 463
notices, 583
of meetings, 470
twenty-second annual meeting, 117
twenty-third annual meeting, 356

Amyl nitrite, effect of, on bronchial tree, observations on (Nicholson), 194

Anesthesia and pulmonary ventilation in major chest surgery (Crafoord), 237

Apicolysis, extrafascial, extrafascial air as adjunct to thoracoplasty with (Aycock, Brantigan, and Welch), 382

Artificial pneumothorax; its practical application in treatment of pulmonary tuberculosis (B. Rev.), 693

Atresia, congenital, of esophagus with tracheo-esophageal fistula, surgical correction of (Shaw), 213

Aycock, Thomas B. (with Brantigan, O. C., and Welch, Hugh). Extrafascial air as adjunct to thoracoplasty with extrafascial apicolysis, 382, 391

B

Ballon, H. C. (with Guernon, A., and Simon, M. A.). Sulfanilamide and experimental tuberculosis in guinea pig, 584

Barrett, N. R. Fibroma of esophagus; report of case, 672

Barton, Wesley A. (with Heinbecker, Peter). Operation for development of collateral circulation to heart, 431

Baum, Felix. Logic of collapse therapy, 322

Bennett, E. S. Discussion of study of immediate and late results in 511 patients subjected to thoracoplasty, 378

Berry, Frank B. Discussion of benign chondromas of ribs and of primary tumors of ribs, 159
discussion of malignant tumors of diaphragm, 192

Bethune, Norman. In memoriam, 460

Betts, Reeve H. (with Overholt, R. H.). Comparative report of infection of thoracoplasty wounds, 520

Book reviews, 693

Brantigan, Otto C. (with Aycock, T. B., and Welch, Hugh). Extrafascial air as adjunct to thoracoplasty with extrafascial apicolysis, 382

Bronchial fistulas, pedicled muscle flap in treatment of (Crafoord and Linton), 606
tree, observations on effect of amyl nitrite on (Nicholson), 194

Bronchiectasis, ligation of left main hilum for (Leahy), 80
situs inversus, and sinusitis (Cole and Nalls), 689

Bronchiogenic carcinoma, chronic inflammatory lesions of lung simulating (Freedlander and Wolpaw), 530

Bronchoscopic mirror for upper lobe visualization (Gebauer), 89

Brown, A. Lincoln. Pectus excavatum (funnel chest), 164, 184

Brunn, Harold. Two interesting benign lung tumors of contradictory histopathology; remarks on necessity for maintaining chest tumor registry (presidential address), 119

Bullock, Lewis T. (with Jones, J. C., and Dolley, F. S.). Diagnosis and surgical therapy of patent ductus arteriosus, 413

Burke, Hugh, E. Role of pleural lymphatics in pathogenesis of cold abscesses of chest wall and paravertebral abscesses, 506

Butler, Ethan F. Discussion of acute putrid abscess of lung, 449
discussion of benign chondromas of ribs and of primary tumors of ribs, 160
discussion of malignant tumors of diaphragm, 192

C

Cabitt, Henry L. Discussion of benign chondromas of ribs and of primary tumors of ribs, 162
Cannula openings following internal pneumolysis, effective method for closure of (Whelchel and Grove), 549
Carr, Duane. Discussion of operation for development of collateral circulation to heart, 438
Cervicomediastinal abscess due to nonperforative trauma to esophagus (Jemerin and Coleman), 11
continuity, demonstration of, with comments on extrapleural extension of mediastinal abscess (Jemerin and Neuhof), 1
Chapman, P. T. (with O'Brien, E. J., Day, J. C., and Tuttle, W. M.). Study of immediate and late results in 511 patients subjected to thoracoplasty, 364
Chest tumor registry, remarks on necessity for maintaining (Brunn), 119
Chondromas, benign, of ribs (Harper), 132
Cohn, Roy. Postnatal growth of lung, 274
Cole, Dean B. (with Nalls, Walter L.). Situs inversus, sinusitis, and bronchiectasis, 689
Coleman, Lester L. (with Jemerin, E. E.). Cervicomediastinal abscess due to nonoperative trauma to esophagus, 11
Collapse therapy, logic of (Baum), 322
mechanical aids to (Oatway and Gale), 656
Crafoord, Clarence. Discussion of differential pressure and reduced lung function in intrathoracic operations, 260
pulmonary ventilation and anesthesia in major chest surgery, 237
(with Linton, P.). Pedicled muscle flap in treatment of bronchial fistulas; report of 16 cases, 606
Crecca, Anthony D. Transthoracic phrenic nerve interruption, 97
Curettage, endoscopic, preliminary note on (Samson), 679

D

Day, J. C. (with O'Brien, E. J., Chapman, P. T., and Tuttle, W. M.). Study of the immediate and late results in 511 patients subjected to thoracoplasty, 364
Decker, H. Ryerson. Foreign bodies in heart and pericardium—should they be removed?, 62
Diaphragm, malignant tumors of (Gale and Edwards), 185
Differential pressures and reduced lung function in intrathoracic operations (Adams), 254
Dolley, Frank S. Discussion of extrafascial air as adjunct to thoracoplasty with extrafascial apicolysis, 389
discussion of four years' experience with extrapleural pneumothorax and oleothorax, 407
(with Jones, J. C., and Bullock, L. T.). Diagnosis and surgical therapy of patent ductus arteriosus, 413
Donaldson, J. M. (with McCorkle, R. G., and Koerth, C. J.). Thoracic lipomas, 568
Ductus arteriosus, patent, diagnosis and surgical therapy of (Jones, Dolley, and Bullock), 413

E

Edwards, S. R. (with Gale, J. W.). Malignant tumors of diaphragm, 185
Ehler, Adrian A. (with Maier, H. C.). Esophagus after pneumonectomy, 220
Eloesser, Leo. Discussion of benign chondromas of ribs and of primary tumors of ribs, 160
discussion of large infected solitary cysts simulating empyema, 492
discussion of study of immediate and late results in 511 patients subjected to thoracoplasty, 378
Empyema, acute, with *Brucella abortus* as primary causative agent (MacDonald), 92
large infected solitary pulmonary cysts simulating (Maier and Haight), 471
Esophagus after pneumonectomy (Maier and Ehler), 220
cervicomediastinal abscess due to nonperforative trauma to (Jemerin and Coleman), 11
fibroma of (Barrett), 672

F

Farris, J. Matthews (with Haight, Cameron). Tuberculoma of lung, 108
Fibroma of esophagus (Barrett), 672
Finochietto, Ricardo. Thoracoplasty without section of muscles, 450
Freedlander, S. O. Discussion of benign chondromas of ribs and of primary tumors of ribs, 160
(with Wolpaw, S. E.). Chronic inflammatory lesions of lung simulating bronchiogenic carcinoma, 530
Funnel chest, pectus excavatum (Brown), 164

G

Gale, J. W. (with Edwards, S. R.). Malignant tumors of diaphragm, 185, 193
(with Oatway, W. H., Jr.). Mechanical aids to collapse therapy, 656
Gebauer, Paul W. Bronchoscopic mirror for upper lobe visualization, 89
Goldman, Alfred. Discussion of differential pressures and reduced lung function in intrathoracic operations, 260
discussion of extrafascial air as adjunct to thoracoplasty with extrafascial apicolysis, 391
Grove, Edward W. (with Whelchel, C. O.). Effective method for closure of cannula openings following internal pneumolysis, 549
Guernon, A. (with Ballon, H. C., and Simon, M. A.). Sulfanilamide and experimental tuberculosis in guinea pig, 584
Gunshot wounds of chest (Ranson), 278

H

Haight, Cameron. Discussion of pulmonary ventilation and anesthesia, 253
(with Farris, J. Matthews). Tuberculoma of lung, 108
(with Maier, H. C.). Large infected solitary pulmonary cysts simulating empyema, 471, 493
Hall, Harry B. Thoracoplasty retractor harness, 94
Harper, Fred R. Benign chondromas of ribs, 132, 163
Harrington, Stuart W. Discussion of benign chondromas of ribs and of primary tumors of ribs, 161
discussion of pulmonary ventilation and anesthesia, 253
Harris, H. A. (with Lewis, Ivor). Anomalies of lungs with special reference to danger of abnormal vessels in lobectomy, 666
Harter, John S. Discussion of joint manifestations associated with intrathoracic tumors, 505
Head, Jerome R. Discussion of benign chondromas of ribs and of primary tumors of ribs, 161
discussion of large infected solitary pulmonary cysts simulating empyema, 493
discussion of malignant tumors of diaphragm, 192
discussion of selective type of thoracoplastic operation, 363
Heart and pericardium, foreign bodies in (Decker), 62
stab wound of, with coronary ligation (Olim and Hughes), 99
Heinbecker, Peter (with Barton, W. A.). Operation for development of collateral circulation to heart, 431
Hemicardiac hypertrophy due to increased peripheral resistance (Holman), 263
Hemorrhage in intrapleural pneumolysis, control of (Paneth), 544
Herz, Liselotte (with Louria, Milton, and Lederer, Max). Neurofibromatosis with sarcomas in lungs, 612
Hiltz, J. E. (with Miller, A. F., and Schaffner, V. D.). Thoracoplasty in treatment of pulmonary tuberculosis; review of 100 consecutive cases, 634
Hochberg, Lew A. (with Rabinovitch, J., and Lederer, M.). Primary (bronchiogenic) carcinoma of lung, 332
Holman, Emile. Discussion of benign chondromas of ribs and of primary tumors of ribs, 161
discussion of diagnosis and surgical therapy of patent ductus arteriosus, 427
discussion of pulmonary ventilation and anesthesia, 253
discussion of study of immediate and late results in 511 patients subjected to thoracoplasty, 379
hemicardiac hypertrophy due to increased peripheral resistance, 262
Hudson, W. A. Discussion of benign chondromas of ribs and of primary tumors of ribs, 162
selective type of thoracoplastic operation, 357
Hughes, John D. (with Olim, C. B.). Stab wound of heart with coronary ligation, 99

I

Intrabronchial pressures, differential, and mediastinal emphysema (Marcotte, Phillips, and Adams), 346
Intrathoracic operation, differential pressures and reduced lung function in (Adams), 254
tumors, joint manifestations associated with (Van Hazel), 495

J

Janes, Robert M. Discussion of study of immediate and late results in 511 patients subjected to thoracoplasty, 377
primary tumors of ribs, 145
Jemerin, Edward E. (with Coleman, L. L.). Cervicomediastinal abscess due to nonperforative trauma to esophagus, 11
(with Neuhof, H.). Demonstration of cervicomediastinal continuity with comments on extrapleural extension of mediastinal abscess, 1

Joint manifestations associated with intrathoracic tumors (Van Hazel), 495
Jones, John C. (with Dolley, F. S., and Bullock, L. T.). Diagnosis and surgical therapy of patent ductus arteriosus, 413

K

Kinsella, Thomas J. Discussion of benign chondromas of ribs and of primary tumors of ribs, 162
discussion of malignant tumors of diaphragm, 193

Linton, P. (with Crafoord, Clarence). Pedicled muscle flap in treatment of bronchial fistulas; report of 16 cases, 606
Lipiodol in pericardium (Lindskog and Tennant), 227
Lipomas, thoracic (McCorkle, Koerth, and Donaldson), 568
Livingstone, H. (with Marcotte, R. J., Phillips, F. J., and Adams, W. E.). Differential intrabronchial pressures and mediastinal emphysema, 346
Lobectomy, danger of abnormal vessels in, and anomalies of lung (Harris and Lewis), 666
Louria, Milton (with Lederer, Max, and Herz, Liselotte). Neurofibromatosis with sarcomas in lungs, 612
Lung abscess, putrid (Rosenblatt), 294
acute putrid abscess of (Neuhof and Touroff), 439
chronic inflammatory lesions of, simulating bronchiogenic carcinoma (Freedlander and Wolpaw), 530
Lung—Cont'd
pneumonectomy for malignant and suppurative disease of (Overholt), 17
postnatal growth of (Cohn), 274
primary (bronchiogenic) carcinoma of (Rabinovitch, Hochberg, and Lederer), 332
tuberculoma of (Haight and Farris), 108
tumors, benign, of contradictory histopathology (Brunn), 119
Lungs, anomalies of, with special reference to danger of abnormal vessels in lobectomy (Harris and Lewis), 666
